

WEEK 2: HONDURAS

CARE FOR GOD'S CREATION

All of creation is a gift from God, and our actions can help or hurt this gift. We show respect and love for God by taking care of his creation—the plants, animals and each other.

STORY OF HOPE

Rony is a farmer who lives with his wife Reina and two children about two hours from Tegucigalpa, the capital of Honduras. His son Emilson, age 14, dreams of becoming a professional soccer player. Determined to support Emilson's dream, Rony enrolled him in a soccer academy in Tegucigalpa, despite the expenses involved, and looked for ways to increase his income.

Rony participated in a Catholic Relief Services project to learn new farming techniques and how to care for the land and natural resources. CRS also helped him repair an old reservoir and install a low-cost irrigation system with pipes and hoses that uses very little water to grow his crops. Now he can harvest his crops even if it doesn't rain.

Today, Rony can feed his family, pay the soccer academy's fees and help people in his community. He's even become an active advocate for caring for the environment. "That's the best way to guarantee the lives of our families and the animals," he says.

FACTS TO CONSIDER:

- Honduras, a country slightly larger than Tennessee, has one of the highest levels of economic inequality in Latin America. CRS has worked in Honduras for more than 60 years and is helping communities become safer and increase their access to income and education.
- Honduras shares a border with Guatemala, El Salvador and Nicaragua. It has coasts on the Pacific and Atlantic oceans. Among the country's main exported agricultural products are bananas, coffee beans and sugarcane. CRS has been providing humanitarian assistance in Guatemala since 1963, supporting food security, nutrition, health,

agriculture, education, disaster risk reduction and emergency response programs.

- In 2020, Honduras was hit by hurricanes Eta and Iota. Thousands of people lost their homes, and crops were damaged or destroyed. When the country faces a natural disaster, the magnitude of its impact is greater because of climate change, erosion of the land and other factors.

CARE FOR GOD'S CREATION

45 MINUTES

OBJECTIVE

Through the story of Rony in Honduras, students will explore the Catholic social teaching principle of Care for God's Creation and how they can help take care of our planet and global family.

MATERIALS

- Week 2 story and video—available at [crsricebowl.org/stories](https://www.crsricebowl.org/stories).
- Week 2 Activity Sheet: Grades 4-6.

DISCUSSION (15 MINUTES)

1. Read the story from week 2. Use the video to supplement the story.
2. Reflect:
 - What would it be like to live in a place where the weather has such a big impact on your family's survival?
 - Invite a volunteer to read the following words from Pope Francis: "Once I was in the countryside and I heard a saying from a simple person who had a great love for flowers and took care of them. He said to me, 'We must take care of the beautiful things that God has given us! Creation is ours so that we can receive good things from it; not exploit it, to protect it. God forgives always, we forgive sometimes, but creation never forgives.'"
 - Ask students what it means that "God forgives always, we forgive sometimes, but creation never forgives."

ACTIVITY (25 MINUTES)

1. Explain the Catholic social teaching principle of Care for God's Creation. God created every plant, every mountaintop and valley, every animal and person—everything and everyone. And God said they are good. Our planet and global family are gifts from God, and so we must take care of them—for ourselves and for all people.
2. Have students complete the Week 2 Activity Sheet: Grades 4-6.

3. If time permits, ask students to share one way they can care for our planet and global family.

CLOSING PRAYER (5 MINUTES)

An edited excerpt from Pope Francis' apostolic exhortation *Querida Amazonia*:

Blessed Mary, Mother of life,

In your maternal womb Jesus took flesh, the Lord of all that exists. Risen, he transfigured you by his light and made you the Queen of all creation. Show yourself the Mother of all creatures, in the beauty of the flowers, the rivers and all the life pulsing in its forests.

Ask Jesus to pour out all his love on all of us so that we may know how to appreciate and care for it. Touch our hearts, for, even though we sense that the hour is late, you call us to save what is still alive.

Amen

AT HOME

1. Share your activity sheet with your family.
2. As a family, read and discuss the daily reflection in your **CRS Rice Bowl Lenten Calendar**.

IF YOU ONLY HAVE

10

MINUTES

1. Read the story from week 2. Use the video to supplement the story.
2. Lead Discussion step 2.

Name: _____

There are 14 words hidden in the box. Can you find them all?

Word Bank

- AIR
- LEAF
- ROOT
- SOIL
- TREE
- WATER
- RIVER
- OCEAN
- ANIMAL
- FLOWER
- OXYGEN
- FOREST
- MOUNTAIN
- WATERFALL

Bonus: Unscramble the letters to spell the word that means when soil, rock or sediments are worn away by water, wind or ice.

ISENOOR _ _ _ _ _

Write five sentences on actions that damage our planet. Then write an example of what can be done to change that.

Actions that damage our planet

Something that can be done about it
